To https://github.com/testgit-healthyr/myproject.git
 * [new branch] master -> master
Branch master set up to track remote branch master from origin.
gittest@argonaut:~/myproject$
```

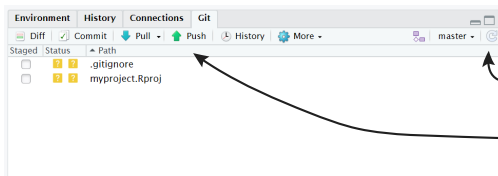

Paste and enter

Enter github username

Enter github password

Always ensure correct project folder
Terminal -> New Terminal

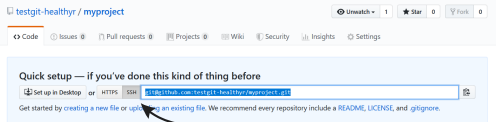

B

Refresh Git tab

Pull / push
now active

C

To avoid repeat
password
requests -
Github:
Copy SSH
address

D RStudio terminal enter:

```
Console Terminal x Jobs x
Terminal 1 - gittest@argonaut: ~/myproject
gittest@argonaut:~/myproject$ git config remote.origin.url git@github.com:testgit-healthyr/myproject.git
```

E Check push / pull buttons
